INSTALLATION TRAINING OFFERING

PPF FUNDAMENTALS (3 DAYS)

Learn the basics of prep, installation solution mixtures, proper tool usage, and plotter pattern cutting. Practice installing PPF on high impact areas of a vehicle.

PPF ELEVATE (3.5 DAYS)

Experience challenging vehicle panels and complex installations, such as front bumpers, full fenders with edge wrapping, bulking mirrors, and full hoods.

PPF FOUNDATIONS PRO (3 WEEKS)

Start with the basics of PPF installation and develop your skills through repetition. This is a comprehensive program that ends with an onsite assessment and certification.

AUTO WINDOW FILM (3 DAYS)

Learn the basics of glass preparation, installation solution mixtures, heat-forming, and using Core pattern cutting software and plotter. Get hands-on practice installing.

INTRO TO ARCH FILM (2 DAYS)

Learn the basics of flat glass preparation, installation solution mixtures, and essential tools. Practice installing window film on various window shapes and styles.

SAFETY FILM CERTIFICATION (1 DAY)*

Learn the proper procedures for preparing, cutting and installing films 7 mil or thicker. Introduction to attachment systems and wet glazing methods. (*prerequisite)

All classes are $600 per day and include lunch and tools.
